SHUBHAM SHARMA

Senior Consultant · Senior DevOps & Platform Engineer · DevSecOps Lead

Pune, India • shubhs248@gmail.com • shubhs248.github.io • linkedin.com/in/shubhs248 • github.com/shubhs248

PROFESSIONAL SUMMARY

Senior Consultant & DevOps/Platform Engineer with **7+ years of hands-on experience** architecting resilient multi-region Kubernetes platforms, automated CI/CD/CT pipelines, shift-left DevSecOps security guardrails, and enterprise observability. Recognized track record supporting **60+ enterprise managed services**, reducing incident detection time (MTTD) by **70%**, decreasing security vulnerabilities by **40%**, and accelerating engineering velocity through **Generative AI enablement** (GitHub Copilot, GitLab Duo).

TECHNICAL SKILLS MATRIX

Cloud & Orchestration:	Kubernetes (EKS/AKS), Docker, Helm, AWS (IAM, VPC, EKS, EC2, S3), Microsoft Azure, OpenShift
DevSecOps & Security:	GitHub Advanced Security (GHAS), SonarQube, Trivy, Burp Suite, Black Duck, SAST, DAST, SCA, CycloneDX SBOM
GenAI Enablement:	GitHub Copilot, GitLab Duo, Microsoft 365 Copilot, Prompt Engineering, Local RAG (Ollama, Chroma)
CI/CD & IaC:	Terraform, Ansible, Jenkins (Declarative & Shared Libraries), Azure DevOps, GitHub Actions, CloudFormation
Observability & SRE:	Prometheus, Grafana, Splunk, Datadog, Alertmanager, ServiceNow, ITIL, Root-Cause Analysis (RCA), SLA/SLO
Languages & Tooling:	Python, Bash Scripting, Groovy, Linux/Unix Administration, YAML, Git, Nexus, Artifactory, SonarQube

PROFESSIONAL EXPERIENCE

Senior Consultant — Infosys

Aug 2026 – Present

Pune, India

- Design enterprise architectural roadmaps and **AI-integrated DevSecOps CI/CD/CT pipelines** leveraging automated testing frameworks and intelligent delivery methodologies.
- Architect multi-platform tooling integrations across **GitHub, GitLab, Azure DevOps**, and hybrid enterprise clouds on **AWS and Azure**.
- Spearhead **Generative AI enablement** across engineering squads, coaching developers on **GitHub Copilot, GitLab Duo**, and Microsoft 365 Copilot to accelerate feature velocity by **34%**.
- Embed continuous shift-left security governance utilizing **SAST, DAST, and SCA** tools (GitHub Advanced Security, SonarQube, Trivy, Burp Suite, Black Duck) with automated pull request quality gates.
- Standardize **Infrastructure as Code (IaC)** module architecture and multi-environment orchestration using **Terraform, Ansible, and CloudFormation**.

Senior DevOps Engineer / DevOps Engineer — Amdocs

Jan 2022 – Aug 2026

Pune, India (Senior DevOps Engineer: Jun 2024 – Aug 2026 · DevOps Engineer: Jan 2022 – Jun 2024)

- Architected centralized DevOps enablement and observability platforms supporting **60+ enterprise managed services** across multi-region Kubernetes clusters.
- Reduced incident detection time (MTTD) by **70%** by designing unified Prometheus and Grafana alerting systems monitoring replication health and capacity thresholds.
- Engineered **17+ automated CI/CD pipelines** using Python, Bash, and Jenkins Shared Libraries for compliance verification and automated cloud deployments.
- Reduced reported vulnerabilities by **40%** by establishing SonarQube quality gate thresholds and Nexus artifact governance across 20+ enterprise applications.
- Led production disaster-recovery (DR) replication simulations and blameless Root Cause Analysis (RCA) to maintain **99.98% platform reliability SLA**.

Associate DevOps Engineer / Programmer Analyst — Cognizant

Nov 2019 – Jan 2022

Pune, India

- Automated Jenkins CI/CD deployment pipelines, **reducing manual deployment overhead by 60%** across business-critical releases.
- Integrated Splunk log monitoring with ServiceNow incident management workflows, accelerating incident response and guaranteeing strict SLA compliance.
- Authored automated Python and Bash maintenance scripts to eliminate repetitive operational toil, **improving incident resolution time by 40%**.

SELECTED ENGINEERING PROJECTS

Operations Dashboard (FastAPI · Kubernetes · Chart.js · Docker · Observability)
Unified platform operations single-pane-of-glass providing real-time pod health analytics, MCP microservice metrics, and rate-aware alerting with zero-credential demo mode. github.com/shubhs248/Operations-Dashboard

DevOps LearningHub & LabSensei (Kubernetes · Terraform · Ollama · Chroma · Streamlit · RAG)
12-lab enterprise practice suite spanning Linux, Docker, K8s, and Terraform; paired with LabSensei, an offline AI tutor leveraging local RAG and SM-2 spaced repetition. github.com/shubhs248/DevOps-LearningHub

CERTIFICATIONS & EDUCATION

AWS Certified Cloud Practitioner
Amazon Web Services · Valid through May 2027 · Credly Verified

Microsoft Certified: Azure Fundamentals (AZ-900)
Microsoft · Credly Verified

Post Graduate Program in Cloud Computing
Great Learning · 2025

Bachelor of Engineering (B.E.), Electronics & Communication
RGPV, Bhopal · 2014 – 2018
